

**RESPONSE TO QUESTION #4 – AEPA IFB #008**

Each category is a separate and independent solicitation, and must have its own binder and its own forms. Each category is individually evaluated, approved and awarded.

**QUESTION #4 - AEPA IFB #008**

I have a question that came up during preliminary preparation. Does each part need to be in a separate binder? We had submitted Synthetic and Harwood Flooring together originally, but now that we are also submitting for Turf and Track, do we need to use all separate notebooks for submittals or can we combine the flooring as we did originally and possibly in a separate notebook combine Turf and Track? Please let me know what is preferred.

Thanks,

Sheli Keyes
