Question #7 – AEPA IFB #008

Part B. Section 6. 6.1.3 reads as follows:

6.1.3 Provide a reference list of current clients, preferably with a wide range of student enrollments.

For each client, provide a contact person and contact information and the year the client began using the vendor's Transportation Management program.

Should 'Transportation Management program' above be such or should it read 'Administrative Software'
