- 1) Current assets (e.g. cash, joint venture accounts, accounts receivable, notes receivable, accrued income, deposits, materials inventory and prepaid expenses)
- 2) Net fixed assets
- 3) Other assets
- 4) Current liabilities (e.g. accounts payable, notes payable, accrued expenses, provision for income taxes, advances, accrued salaries and accrued payroll taxes)

10) Will it be necessary for your firm to assign payments to a financial institution? Order to perform under this contract? If so, please name any financial institutions that you may use for assignments or for factoring. If you enter into any assignment agreements, will you sign a notarized power of attorney that grants the company receiving the assignment the right to endorse payments from member agency?

Please attach a sample assignment or factoring agreement with your bid if you intend to use these financial services. The fact that a company uses these services will not reflect on the credit stature of the AEPA vendor. Since AEPA requires a 45-day term rather than the more traditional 30 days, such payment arrangements may be necessary.

11) Within the last seven (7) years has your company been the subject of any voluntary or involuntary bankruptcy, insolvency or receivership proceeding? If so, please state the case name(s) and court file number of each proceeding, the nature of the proceeding, whether such proceeding is ongoing and the resolution of each completed proceeding.

8. One of AEPA agencies functions is to act as Educational Cooperative and its members are the public educational institutions in the various states. The sole purpose of AEPA is to support these agencies in their day-to-day procurement. Describe in writing, your company's ability, willingness and means to sell, deliver, provide and support the proposed products/services to AEPA agencies under the most advantageous conditions including price. Do you currently have or plan to have national, state or other contracts, which AEPA members might utilize and be in direct competition with the AEPA contract? If so, why do you wish to secure an AEPA contract and how would the AEPA contract be more advantageous to its members compared to other cooperative contracts?
9. This is an IFB and while AEPA is required to base an award strictly on the lowest price, any time a vendor charges more than another for a product or service, justification is needed. Every AEPA contract must be for the public good, not for the benefit of a vendor. However, having said that, AEPA is totally committed to two basics in the American way of business – profit and competition. Products and services offered herein must be of good sound quality, have good durability/performance life and stand up to public use. Please provide in writing, reasons why your products and services meet or exceed the minimum specifications and are worth the prices or fees you are charging. Is there “added value” received by the customer when purchasing through you rather than a competitor, or is your major benefit price alone?
10. In comparing previous projects your organization has completed, do you see any areas where your organization possesses experience, production or service facilities, personnel or other service reputation that should be considered with your ability to provide on time quality construction projects for AEPA member agency's clients? If yes, fully describe these attributes, resources and how they are utilized to benefit the owner's projects.
11. Indicate and illustrate your firm's ability to provide full time onsite project management on every project in each AEPA state by providing a list of project managers and the states they will be responsible for.
12. 13. Briefly describe your variety of manufactured products and services you are offering to the AEPA member clients.
 - a. Are you able to provide multiple manufactured materials? Describe the number and variety of alarms and security systems and manufactured material you are able to offer through licensed installers.
 - b. What type and level of research and development program do you have in place and what ability to offer advanced technology and methods of installation with regard to services and products?
 - c. What valued added options do you offer not defined or addressed in the IFB format? If they are best described in the line item format please add to designated area at the end of the line item list.
14. Describe your marketing program strategy to actively promote the product and services to all AEPA qualified clients. Provide marketing plan that includes:

- a. How and by whom will the marketing function are carried out;
